## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 9 are <sup>FF</sup> *Finally* rejected under 35 U.S.C. 102(b) as being anticipated by Krause et al. [4,659,026], hereinafter Krause.

Krause discloses a vertical shaft impact crusher comprising: a rotor comprising an upper disc 96, a lower disc 90, and a vertical wall segment 100 connecting the upper disc and the lower disc; a horizontal wear plate 12 and 122 in position on the rotor; and a holding member comprising a holding part [bolts 126] for holding the wear plate and a fixing means [nuts 125] for releasably fixing the holding member to the vertical wall segment of the rotor such that the wear plate bears against a first side of the wall segment [the top and the bottom].

3. Claims 1 and 9 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Bechler [5,029,761].

Bechler discloses a vertical shaft impact crusher 10 comprising: a rotor comprising an upper disc 54, a lower disc 56, and a vertical wall segment 94 connecting the upper disc and the lower disc; a horizontal wear plate 116 and 118 in position on the rotor; and a holding member comprising a holding part for holding the wear plate and a fixing means [col 3 lines 50-66] for releasably fixing the holding member to the vertical

wall segment of the rotor such that the wear plate bears against a first side of the wall segment.

***Allowable Subject Matter***

4. Claims 11-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
